1991 ELK HUNTING AND HARVEST REPORT

MAY 28, 1992

PREFACE

Survey Approach

Resident and nonresident elk license or permit holders were randomly sampled from 185 subpopulations of resident and nonresident elk license or permit holders in our license database. One subpopulation consisted of all elk license holders who had purchased only a general elk license with no special elk permit, and the other 184 subpopulations were elk license holders who had drawn one of the 184 types of special elk permits. Elk hunting and harvest data were acquired via telephone for resident license holders and via a mail survey for nonresidents.

Definitions

Explanations

The elk hunting and harvest statistics are estimates made from the sample of 56,919 questionnaires representing about 43 percent of all 132,598 elk license holders. Confidence-interval estimates are given for hunters, hunter days, and total harvest. Confidence intervals are given at the 80 percent confidence level, meaning that the actual value will be between the lower and upper limit in four out of five cases. The relative precision of the estimate increases with the size of the estimate. Regional estimates have greater relative precision than district estimates and the statewide estimates have the greatest relative precision.

All valid response data were used in the estimates even when some data fields were missing. This is the reason for the various unknown categories given in the report. The unknown license type given in the harvest sections is used to represent elk kills which could not be associated with a particular license/season type. Hunting or harvest activity in an unknown or invalid hunting district within a valid region is represented as "RXX" where R is the regional number 1 through 7. An unknown district in an unknown region is represented as "XXX". The unknown district or region activities are still incorporated into the regional or state totals respectively.

(CONTINUED)

All estimates represented are rounded to the nearest whole number. It is for this reason that rows and columns do not always agree exactly with row or column totals given.

The category called "MISC. PERMIT" on the state summary page (155) gives estimates of kills reported by special permit holders when the kill occurred outside of their permit district(s). Most of these kills were legal on their general elk license.

New to the report this year is an addendum on page 156 which gives a breakdown of the kills listed under "MISC. PERMIT" on the state summary page (page 155). The number of kills made outside their special permit district(s) by special permit holders was more significant in 1991 than in previous years. This phenomenon was probably due to two factors: (1) the new rule making it illegal for a hunter to kill a bull in his/her special permit area and (2) the exceptional hunting and success in some districts (eg. 313) which attracted hunters from other areas. The addendum lists only hunting districts where the kill was ten or greater. To improve the harvest estimates, these kills should be added to the appropriate districts.

Next year we hope to modify the analysis software to include the "MISC. PERMIT" category in each of the districts.

TIME PERIOD OF KILL REPORT

MONTANA DEPARTMENT OF FISH, WILDLIFE & PARKS

1991 ELK TIME PERIOD OF KILL REPORT

JUNE 5, 1992

PREFACE

Survey Approach

Resident and nonresident elk license or permit holders were randomly sampled from 185 subpopulations of resident and nonresident elk license or permit holders in our license database. One subpopulation consisted of all elk license holders who had purchased only a general elk license with no special elk permit, and the other 184 subpopulations were elk license holders who had drawn one of the 184 types of special elk permits. Elk hunting and harvest data were acquired via telephone for resident license holders and via a mail survey for nonresidents.

Definitions

UNKWN..............	A symbol for unknown used to designate unknown time period of kill
GEN ELK............	An abbreviation for general elk license
GEN B10............	An abbreviation for nonresident Big Game Combination license type B10
SP.................	An abbreviation for special permit preceding the special permit district/option designation
SPECIAL............	Used in the regional or state summaries to designate combined special permits
UNKNOWN............	A license category where the license used to take the elk was unknown

Explanations

The elk time period of kill statistics are estimates made from the sample of 56,919 questionnaires representing about 43 percent of all 132,598 elk license holders. The total harvest estimate in each license category is given on the right side of each page. To obtain estimates of the actual number killed in a given time period, the percentages can be applied to the total harvest estimate.

All valid response data were used in the analyses even when some data fields were missing. This is the reason for the various unknown categories given in the report. The unknown license type is used to represent elk kills which could not be associated with a particular license/season type. Kills in an unknown or invalid hunting district within a valid region are represented as "RXX" where R is the regional number 1 through 7. An unknown district in an unknown region is represented as "XXX". The unknown district or region kills are still incorporated into the regional or state totals respectively.

This report for 1991 represents the first year that the time period of kill statistics are based on expanded estimates rather than on the completed questionnaire sample. Previous reports listed "SAMPLE NUMBER KILLED" above the right-hand column whereas this report lists "TOTAL HARVEST ESTIMATE".

Survey Approach

Resident and nonresident elk license or permit holders were randomly sampled from 185 subpopulations of resident and nonresident elk license or permit holders in our license database. One subpopulation consisted of all elk license holders who had purchased only a general elk license with no special elk permit, and the other 184 subpopulations were elk license holders who had drawn one of the 184 types of special elk permits. Elk hunting and harvest data were acquired via telephone for resident license holders and via a mail survey for nonresidents.

Definitions

ANTLER TYPE...The number of points on each side
FREQUENCY.....The number of occurrences of the given antler type in the given hunting unit within the expanded sample antler data collected
PERCENT.......The percentage of the total represented by each frequency

Explanations

The elk antler point statistics are estimates made from the sample of 56,919 questionnaires representing about 43 percent of all 132,598 elk license holders. The frequencies and percentages are expanded estimates made from the sample data collected for antlered elk with completed antler point counts. Total estimated number killed in each hunting unit is given at the bottom of the frequency column.

All valid response data were used in the analyses even when some data fields were missing. This is the reason for the unknown hunting unit categories given in the report. Kills in an unknown or invalid hunting district within a valid region are represented as "RXX" where R is the regional number 1 through 7. An unknown district in an unknown region is represented as "XXX". The unknown district or region kills are still incorporated into the regional or state totals respectively.

This report for 1991 represents the first year that the antler point frequencies are expanded estimates rather than a frequency count of the collected sample data. This was done primarily to correct the occasional bias explained in the 1990 antler point statistics preface, but the change should also make the results easier to use.

Elk

LICENSES & GENERAL INFORMATION

- Sportsmen may purchase only one elk license per year, which is included in the resident Sportsman's License and the nonresident Big Game Combination License.
- Only nonresidents holding a Big Game Combination License may hunt elk.
- Sportsmen harvesting an elk must, if required by the Department, physically return to the kill site for inspection and on demand show the complete head.

Elk Prerequisite

- Residents and nonresidents are required to purchase a general elk license prior to applying for a special elk permit. Applicants must list their 1991 general elk license number in the designated space on the 1991 special drawing application form, or their application will be eliminated from the elk special drawings.

Landowner Preference

- Montana landowners who qualify may receive preference in the elk permit and A-7 antlerless elk license special drawings. To qualify, the applicant must own 640 acres of contiguous land used by elk or where elk are known to occur at anytime during the year. If the permit is valid for a portion of the hunting district only, the landowner must own land within that portion.
- Preference is available to resident and nonresident landowners and can be designated to a blood or marriage related individual or a person employed by the landowner. Only one person may use or designate preference in a partnership or corporation.

What is an A-7 License?

- An A-7 license is a special antlerless elk license available for use in a very limited number of areas. Sportsmen may not hold both a general elk license and a special A-7 license. The holder of an A-7 license must hunt **ONLY** antlerless elk and must confine their elk hunting **ONLY** to the hunting district for which their A-7 license is valid. They **MAY NOT** hunt elk (bull or antlerless) anywhere else in the state during the 1991 season.
- A-7 licenses are available only through the annual special license and permit drawings. Both residents and nonresidents may apply for these licenses. If successful in drawing an A-7 license, the sportsman will be sent a letter of notice, along with A-7 license purchasing information. The sportsman must obtain the license by September 1 or forfeit the right to purchase it. Those obtaining A-7 licenses must trade in their general elk license when the A-7 license is obtained. If after obtaining the A-7 license the season in the designated area closes before there is an opportunity to hunt, a refund will be given and a general elk license may be purchased.
- The following districts offer A-7 antlerless elk licenses through the special drawings: 240, 250, 261, 270, 282, 311, 329, 443, 520.

SPECIAL SEASONS & TENTATIVE QUOTAS

Both resident and nonresident sportsmen are eligible to apply for the following licenses and permits awarded through the special drawings. Nonresidents are limited to, but not guaranteed, 10 percent of a district quota.

Residents and nonresidents are required to purchase a general elk license prior to applying for a special elk permit or the A-7 antlerless elk license. Applicants must list their 1991 general elk license number in the designated space on the 1991 special drawing application form, or their application will be eliminated from the elk special drawings.

The following districts offer A-7 antlerless elk licenses through the special drawings: 240, 250, 261, 270, 282, 311, 329, 443, 520.

Sportsmen issued a special permit to hunt antlerless elk during all or any portion of the regular season (Oct. 27-Dec. 1) are restricted to hunting and taking **only** an antlerless elk **(whether during the general or archery only season)** where the permit is valid. Permit holders are entitled to general elk hunting season privileges in all other elk hunting districts except those districts restricted to "hunting by permit only".

Because some licenses and permits are valid only in a portion or portions of specified hunting districts, sportsmen should carefully note the district choice for which they are applying. A copy of the legal descriptions for "portion of district" areas is available by **mail** from the Helena Headquarters, Wildlife Division.
